This Season's Orange Crop.

After the most careful estimate it is possible to make this early in the season, based on reports from the growers themselves and personal observation, we are compelled to conclude that the present crop of oranges will not exceed last season's crop by over 5 per cent, and it may be as much as 5 per cent smaller. Of course, the rains and prevalence of storms are factors which may change the total crop.

The grapefruit crop may be onethird larger than last season, it being impossible to accurately estimate grapefruit as early in the season as oranges, the grapefruit never having been kept separate by the transportation lines.

The quality of both oranges and grapefruit promises to be as fine as Florida ever produced.

Last year's crop made a total of 3,106,093 boxes of both oranges and grapefruit, of which it is safe to estimate that one-fifth was grapefruit. but was the poorest fruit ever grown in the State; besides, in many cases the summer fruit was packed in with the regular crop while it was too green to eat.

Notwithstanding the panic and every other influence that may exist, if the fruit is well distributed, honestly and intelligently marketed, there is no reason whatever that good oranges should not bring \$2 or more a box f. o. b., and grapefruit \$3 per box f. o. b.

The crop is several weeks earlier this year than last, and there is but very little summer fruit in the Statetwo factors that worked greatly to the disadvantage of last year's crop.

The Florida Orange Growers' Company is preparing to sell the crops of its stockholders and will begin the execution of its plans early in Sep-

If growers wish to get the above prices for their fruit and wish to make orange-growing profitable to the grower, then they must become stockholders in the company and must post themselves by attending the annual stockholders' meeting at Tampa on August 25th, at 1 o'clock.

The estimates by certain buyers who have formed a league have for the past eight years been from 30 to 50 per cent above the actual crop. This year they estimated 50 per cent above the crop and are doing everything in their power to run prices down, thereby ruining the industry. FLORIDA ORANGE GROWERS CO., JOSIAH VARN, President.

ERBIN

The Popular Liver Medicine Will Keep You Well

A GUARANTEED CURE for all diseases produced by TOR-PID LIVER and IMPURE BLOOD. Do not fill your system with Arsenic, Calomel and Quinine. They act as rank poisons which vitiate the blood, debilitate the system, and leave a trail of bad symptoms which require years to obliterate. HERB-INE is purely vegetable and contains no mineral or narcotic poisons, is absolutely harmless and is the simple remedy of nature. It carries off all poison in the system and leaves no injurious effects.

CURED BY HERBINE AFTER OTHER REMEDIES FAILED

Mr. L. A. Hicks, Iredell, Texas, says: "I was sick in bed for eight months with liver trouble, the doctor seemed to do me no good. I was told to try Herbine, and it cured me in a short time. I cannot recommend this wonderful medicine too highly."

TEN CENTS A WEEK

THEY WENT TO CHURCH.

Bit of Strategy That Won For the Minister.

hen Bishop Wilmer was rector of little Protestant Episcopal church Opperville, Va.," said a Virginia er, "he was much worried by the tendance at service on Sundays the majority of the young men of community. On inquiry he found instead of going to church they in the habit of playing marbles stakes. Marbles in those days, it t be remembered, was a much re serious game than it is now, ocim of sports as do billiards and pool these days.

Rishop Wilmer, then a 'parson' not known, determined to break up practice. He himself had been an et marble player in his boyhood. cordingly one Saturday he came es a number of the young men end in a game. The good bishop ed several questions and finally ellenged the lot to play him for os.' They readily consented.

Much to their astonishment, the ng minister won steadily, and soon y had to go to the stores to repleatheir stock. Toward the close of afternoon M . Wilmer had won y marble in the town of Upper-Putting his winnings in a bag, remarked as he walked away. 'Now, emen, since you can't play martomorrow I hope to see you all church.' And he did."-New York

THE IVORY HUNTER.

HE SOUGHT DEATH.

The Unfortunate Napoleon III. at

Battle of Sedan, Sarah Bernhardt mentions in her moirs that Napoleon III. had b horses shot under him at Sedan Se having thrown doubt on her statem and denied that the emperor was e in personal danger at the time, Bar Verly, son of the late colonel of Cent Gardes, gives what he affirm be the authentic account of the unb py sovereign's persistent attempts court death when he saw that def was unavoidable. On Sept. 1, 1 at 6 o'clock in the morning, Mari MacMahon, returning wounded to dan, met the emperor riding out Bazefiles. Napoleon III. realized the situation was desperate. He slowly out, depressed and thought under a hail of shot. During an he he inspected the positions. But rained on his escort. Captain d'Her court was killed a few feet away for the emperor. The latter, delibera seeking death, alighted, ordered his cort to remain behind an embanker and walked up to a cemetery on height, where he stayed for anot hour, exposed to fire. He mou again and rode to another part of field. General de Courson and Cant de Trecesson were dangerously we ed by his side, but not a bullet hit hi The emperor at last seemed to des of meeting his death as he sought and rode back to Sedan at noon. the town itself shells fell thick, while the emperor was riding with escort up the Grand Rue one b just in front of him, wounded one the Cent Gardes and killed the hor of two alds-de-camp. Napoleon looked on stolidly, understanding haps, that it was not his fate to die action. The story that he had b horses killed under him is, theref not correct. But there is no doubt # the unfortunate emperor, beaten III, a pathetic and tragic figure, did liberately seek death on the field escape the disgrace of Sedan which foresaw.-Paris Letter.

A SERPENT STORY.

Terrifying Experience With a Dea Lancehead.

The Paris Eclair tells a blood e dling serpent story, the scene of wh was the island of Martinique and t dramatis personae Sergeant Legra and Private Durand and the snake deadly lancehead.

The soldier had been punished w a night in the cells for some trivial fense, but as the night was very the sergeant had left the door open the morning at 5 o'clock Legrand w to wake his prisoner and, to his hon beheld a lancehead snake coiled up an fast asleep on the man's breast.

The sergeant did not lose his present of mind. He stole noiselessly awa ran to the guard room and, followed all the men on duty, returned to cell with a bowl of milk and a tin wh tle. Placing the bowl of milk at the entrance to the cell, the sergeant ben to play the "Blue Danube." It is not less to remark that the weakness the lancehead is milk and music. To serpent, which was a six foot spec men, awoke, glided from the soldie body toward the bowl, but it had i sooner buried its head in its below drink than ten cudgels descended It with terrific force, killing it outig

The soldier Durand, who was it swoon, was taken to hospital, when he lay for many days on the verma madness. He finally recovered and it lated his horrible experience-how had awoke in the middle of the sig as the serpent was coiling itself of h bare breast and how he had lain the in an agony for hours, not daring move a muscle.

Durand was sent back to France soon as he had sufficiently record The only trace of his terrible enee, adds the Eclair, is that his is is now snow white.

BERLIN BEER HALLS.

Where One Must Display Great Form

Berlin is organized for eating and drinking, and so are the Berliners organized for it. Scattered all over the city are enormous places where food is served, wine halls where only wines are served and beer halls which deal in beer alone, some of them most respectable and some not so impeccable. It is the rule that it is perfectly proper to take your mother or your wife or your sister to a beer hall or a wine hall that is frequented by the officers of the army. They go only to the proper ones—publicly.

The etiquette of these places is most formal. If the ball is crowded and tables are scarce, before you sit down you draw your heels together and make a military bow to everybody sitting at the table you select; then also you raise your glass or stein to those at the table when your refreshment is served.

On leaving you bow all around again, or the other people at the table bow if they leave before you do. The American way of asking the others at the table for permission to sit down is not ceremonious enough for the Germans, who are the most formally polite people in the world.—Samuel G. Blythe in Everybody's Magazine.

A FAMILY MIX.

The Story as It is Recorded on the Tombstones.

In the early part of the last century there lived in an old New England town a Mr. Church, who, in the course of his pilgrimage through this vale of tears, was bereft of four wives, all of whom were buried in the same lot. In his old age it became necessary to remove the bodies to a new cemetery. This melancholy task the much bereaved widower undertook himself, but in the process the bones of the lamented quartet became hopelessly mixed. Priding himself on possession of a New England conscience, Mr. Church would not, under the painful circumstances, permit the use of the original headstones, but procured new ones, one of which bore the following inscription: "Here lies Hannah Church and probably a portion of Emily." Another: "Sacred to the memory of Emily Church, who seems to be mixed with Matilda." Then followed these lines:

Stranger, pause and drop a tear, For Emily Church lies buried here, Mixed in some perploxing manner With Mary, Matilda and probably Man-

The Star Arcturus.

It is probable that the star Arcturus is one of the six greatest of all the tars in the sky. Notwithstanding its brightness, it is so far away from us that it is not displaced in position in the slightest measurable degree, as we change our position 186,000,000 miles in our annual journey around the sun. Could we be placed midway between Arcturus and our sun we would receive thousands of times more light and heat from the star than from our sun, and this notwithstanding that the star's radiation is smothered ly a dense blanket of metallic vapors. In spite of its immense distance the star is drifting slowly in a southwestward direction over the face of the sky, its motion changing its apparent position by an amount equal to the diameter of the moon in the course of about 1,000 years. So great an apparent motion must indicate an enormous velocity in space .- New York Press.

Peppermint and Tobacco.
If you have a boy who has begun

smoking too early and whom you wish to cure of the habit, feed him peppermints. Dr. O. Clayton Jones of Silverton, England, writing in the London Lancet, is authority for this simple core. Dr. Jones writes: "To break the smoking habit in a youth there is nothing better than peppermint drops. He cannot amoke with a 'bullseye' in his mouth, and even for some time after it is dissolved tobacco will not blend kindly with the taste that remains. Socially the cure may seem worse than the disease, but from a medical point of view the sucking of peppermints is far less hurtful. A common 'bullseye' will prevent smoking for nearly an hour, so the amount of sweets used need not be great."

The Clock Was Wrecked.

Biway-Use an alarm clock nowsdays? Jigsup-No; never tried one but once. Biway - How was that? Jigsup-Well, you see, the first time it went off I didn't exactly know what it was, and so I said, "Oh, for heaven's sake, Maria, shut up?" Maria happened to be awake, and-well, that is how it was.-Liverpool Mercury.

Chivalrous Chicage.
In Chicago more than in any other place is woman regarded in the light of a thing of beauty and a joy forever. There is hardly a man in Chicago who does not esteem feminine loveliness as something beyond price—something to live for, to strive for, to suffer for and if necessary to die for,—Chicago lister Ocean.

How Could She Do It?

The homely forms of speech used the country people with whom lit Edith and her mother boarded la summer were frequently very puzzli to the child.

One evening the farmer's wife. talking for a few minutes with Edith mother, remarked that, as she w very tired that night, she would "go roost with the chickens."

When Edith's bedtime arrived a tle later the youngster was nowhere be found. After considerable search she was discovered sitting on a larg stone near the chicken house, quiet watching the fowl as they came in or

"Edith," called her mother, "wh are you doing there? I've been loo ing for you everywhere; it's time to to bed."

"I know, mother," was the repl "but they're nearly all in now, so she be here soon, I guess."

"Who are in and who will be there What on earth are you talking abou child?" asked the mystifled mother.

"Why," explained Edith, rather in patiently, "you know Mrs. -- said si was going to roost with the chicker tonight, and I'm waiting to see ho she does it."

Eating Test For Cooks.

In a certain employment agency to cooks out of a job waited one afte noon last week for a situation to tur up. Presently a well gowned woma who was short of servants applied the desk for the desired help. Th manager referred her to the ten cook The woman interviewed each of ther in turn with unsatisfactory results.

"Not one of them," she explained the manager of the agency, "likes eat the things that we like."

"But what difference does the make?" asked the manager. "They ar no doubt good girls for all that?"

"Yet they wouldn't suit me," the we man replied decisively. "My famil have very pronounced tastes in cool ery, and my experience has taught m that only a cook who likes the sam dishes that we like can prepare then satisfactorily. That is a matter of sin ple common sense. It stands to reaso that any dish a cook likes will tur out better than one she doesn't like consequently I will do the work my self till I find a girl whose tastes agre with ours."-Philadelphia Ledger.

Nature and the Barnacle. In the barnacle we have a uniqu

and wonderful case of a creature tha can afford as age comes on to dispens with the eyesight that was so usefu in youth. For the young and ol barnacle are as different one from the other as fishes from seaweed. In th heyday of life the barnacle swim about the sea, seeking its food with th aid of its eyes and generally leading roaming existence. Later in life, how ever, it grows tired of this aimles wandering and settles down to worry ships' captains by attaching itself t the keel of their craft and defying the much advertised powers of various pre ventive paints. Once, then, the barns cle has become a fixture, whether or ships or sharks, its eyesight is of ne more use. It cannot seek its food, and it cannot shun its foes, for it neve more will move. Therefore its eye become superfluous and, according t nature's invariable rule in such cases disappear.

Lived to Fight Another Day. Frederick the Great simply lost hi head at Moiwitz, his first battle. Had he not been a king it is safe to sa; that he would have been shot at the next sunrise. In the heat of the carnage he got an idea that the arm; under his command was being over whelmed, so he put the spurs to hi horse and dashed headlong among hi soldiers. He rode many miles before he stopped in his wild flight. Late a night he was discovered hiding in an old mill, awaiting, as he thought, cap ture by the enemy. Then he discov ered that the army he deserted has won the battle. As Frederick was prince, everybody tried to forget the incident just as quickly as possible and after that, when the king went b war, he was just as brave as any oth er soldier.

On the Verge of Prostration. "What else have you got?" asked Cholly, looking languidly over the bil of fare for something to tempt his jad

od appetite. "Well," replied the waltress, "w

have hot biscuits too." "That'll do," said Cholly, resting his intellect by tossing the bill of fare aside. "Bring me a hot biscuit stew."

-Chicago Tribune.

Rebuttal Testimony. The Guest-Isn t your little boy rath er nervous, Mrs. Bimm? Mrs. Bimm-No; I think not. Little Boy-Yes, am, ma: when people who come here stay too long it makes me wriggle around and kick my chair.

Judgment Was Confirmed. A certain old time justice of the peace, wishing to bring suit against a citizen, consulted the statutes and found that suits of such a character might be brought before any justice

of the peace. "Well, then," thought he, "I'll just

try the case myself." Straightway he made out a writ against his adversary and signed it.

On the day set for trial the defendant appeared with counsel. Both gentlemen not unnaturally objected to the constitution of the court.

"Why," demanded the justice, "do you deny that I am a justice of the

The lawyer would not contest this point, but argued that such a construction of the law was against all sense and reason.

A vigorous altercation ensued, and then the judge remarked that not for the world would be have two gentle-men suppose him governed by any per-sonal considerations. "I will therefore," he added gracefully, "render judgment against myself and then appeal to the supreme court."

"But the mischief of it was," sai? the justice, relating the story afterward, "that when my judgment got to the supreme court it was unanimously reaffirmed."

The Dog's Tail.

A prominent citisen was on trial charged with harboring a vicious dog. The attorney for the defense had been consulting a dog expert and had learned that if a dog holds his tail up over his back when he barks he is not angry, while if he holds it straight out behind him he is in a belligerent, bloodthirsty frame of mind. Anxious to air his newly acquired information, the lawyer began cross questioning the prosecuting witness thus:

"Now, did you notice the position in which this dog's tall was held when he

came at you?" "I did not," said the witness, "for

that was not the end from which I anticipated injury. I had another end in view. Now, if the dog had been a hornet"-"No levity, sir!" thundered the attor-

ney. "Answer the question. In what position was the dog's tall when he came at you?" "I believe, sir," faltered the terrified

witness, "that it was behind him."-Chicago News.

The King's Ceck Crower. In the good old time there was an English court official known as the king's cock crower. It seems a strange office. Why did the king require a cock crower, and why could not the common barn door variety serve his majesty's purpose? The reason, as you shall see, was that the barn door variety cannot be depended upon for times and hours, and he has never been persuaded to observe Lent. Now, this was a pious custom and a religious duty. All through Lent the king's cock crower crowed instead of calling the hours of the night in the palace. He began on Ash Wednesday, when he entered the hall in which the king's supper was served, and then crowed the hour in the presence of the royal party. The meaning of the custom is obvious. It was only one of the many ways in which the history of the Christian religion was brought home to the minds of people before the reading of the gospel in the vernacular. The office was continued down to the year 1822 .- London Queen.

"The Greatest Widower." This is said to be the title of a genuine essay evolved some years ago by a boy in a Weish board school:

"King Henry VIII, was the greatest widower that ever lived. He was born at Anno Domini in the year 1006. He had 510 wives besides children. The first was beheaded and executed. The second was revoked. She never smiled again. But/she said the word 'Calais' would be found on her heart after her death. The greatest man in this reign was Lord Sir Garret Wolsey. He was sir named the Boy Bachelor. He was born at the age of 15, unmarried. Henry VIIL was succeeded on the throne by his great-grandmother, the beautiful and accomplished Mary, queen of Scots, sometimes known as the Lady of the Lake!"

Helping the Burglar Out. "John," she whispered, "there's a burglar in the drawing room. He has just knocked against the plane and hit several keys at once."

"I'll go down," said he. "Oh, John, don't do anything rank!" "Rash! Why, I'm going to help him. You don't suppose he can remove the plane from the house without assistance "-- London Throne.

SARTORIAL DILEMMAS.

Weighty Problems That Are Puzzling Our English Cousins.

'A problem is put forward by a writer in a contemporary which gives food for thought. It is this: Suppose by some combination of circumstances you were faced by the alternative of wearing a frock coat with brown boots. Which would be the better way out of it-to wear a bowler or a tall hat? As the writer justly remarks, if you wear a bowler then the thing you have to explain away is the coat. If you wear a tall hat, you have only the boots to account for. We should advise those of our readers who find one morning that all the wearing apparel in the house had been stolen during the night with the exception of a frock coat, waistcoat, trousers, shirt, collar, vest, tie, a pair of brown boots and two hats -one tall, the other round-to cut the Gordian knot by staying in bed. Another of life's dilemmas which may face the traveler down the world's dusty highway has to do with collars. Suppose on arriving at a house for a week end and starting to dress for dinner you find that your evening collars have got wetted by your sponge or otherwise defaced. Should you wear a clean double collar or a dirty orthodox evening collar? In the former case you will be natty, but a thing of loathing to all properly constituted men. In the latter you will give the impression that you cannot afford the services of a laundry.-London Globe.

NAPOLEON'S HABITS.

The Great Warrior Was Fond of Perfume and Clean Linen.

It is pleasant to learn if one has Napoleon I, on the hero list that he had very dainty babits in personal matters; that he was fastidiously clean in his person, according to an article in a French contemporary, and poured eau de cologné into the water he washed in, then sponged his head with perfume and finally poured the remainder of the contents of the flask over his neck and shoulders. He was also extravagantly fond of clean linen and during his campaigns had relays of it sent to different places. In those days it did not cost a farm to have starched things laundered, for, in account with a famous laundress in Paris, the emperor's linen for one wash amounted to 886 pieces and cost only a trifle over

This strikes an American as very reasonable, but his majesty never wore any article but once, and, as he always undressed himself without aid from his valet, his garments were literally cast to the four corners of the room. Napoleon's bill for eau de cologne, however, exceeded the washerwoman's by a large majority. It is a relief to learn that the Little Corporal was so much a dude. Some of his predece in the Tuileries were not blessed with such excellent habits if history is to be relied upon.

To Make Waxed Paper. This is used for keeping substances which contain either a volatile aromatic ingredient or grease, which would penetrate through ordinary paper. On a flat sheet of copper over a gentle fire place a sheet of paper as a base and then lay a second sheet on the top of the first. Coat this second sheet with yellow or white wax and distribute the latter uniformly over the entire sheet by means of a sponge, exerting a little pressure, till the paper is everywhere transparent and consequently permeated by the wax. If the fire is too feeble, the process will be retarded. Too powerfuj a flame is still more harmful, as the paper is liable to become brown or black. Stearin may be used instead of wax.-Der Industriose Geschaftsmann.

Sure to Be There.

An old Scotch farmer was lying on what he thought was his deathbed. He began to give orders to his wife about his funeral and the people to be invited. His wife, knowing that he was not dying, paid but little attention to his requests, and this so enraged the farmer that he rose on his elbow and cried

"What need I speak? There'll be naething dune richt unless I'm there mysel'!"

His wife, patting him on the shoulder, replied: "Toots, man, Bauldy! Keep yer min' easy. Ye'll be the principal man there."-Glasgow Times.

Where They Gas Away. Of the late Laugdon Smith, the brilliant journalist and author of New York, a Denver reporter narrated anecdotes the other day.

"I remember," he said, "my first visit to Washington. Smith, big and handsome and vivacious, showed me about. From an eminence a great pale dome cose up against the blue sky, the dome of the capitol.

"What is that?' said I. "That? said Smith. 'Oh, that's the national gas works."

Gifts from the hand are silver and id, but the heart gives that which fither allver nor gold can buy.-

WON ON A BLUFF.

The Way One Prosperous Merchant Got His Start In Business.

There is a prosperous merchant in Chicago today who owes his success to his donation of a \$5,000 organ to a church at a time when he didn't have money enough to buy a hand organ. This donation was a case of bluff pure and simple, but the bluff worked and resulted in the subsequent wealth of the lucky bluffer.

John Smith was seeking capital to start in business for himself, but as he had no security worth speaking of he could not borrow the money be needed.

When he had tried every person he could think of who would be likely to have the necessary cash and the inclination to lend it and had been turned down, he conceived the idea of presenting his church with an organ.

Young Napoleon John Smith there-fore ordered his organ and allowed the future to look out for itself. The mauufacturers of the organ never thought of questioning the financial standing of the philanthropist who was handing out \$5,000 organs and agreed to have the instrument set up in the church on

Of course J. Smith was not a bud that was born to blush unseen, nor did he hide his beneficence under a bushel. He managed to bring in at least the flute stops no matter what the subject of conversation. Not only did the young Napoleon advertise himself by means of the church organ, but the pleased minister and the equally pleased congregation spread the news of his

During this time John did not allow any alfalfa to grow under his feet. On the pretense of consulting some wealthy member of the congregation about some minor details of the organ be would drop into an office and before he left casually would mention the subject of the company that he was forming. Most of the men that he thus saw thought that it would be a good thing to be associated with a man who was making so much money that he was able to hand out \$5,000 without missing it, so that all were anxious to take stock in J. Smith's company.

Long before the time came for the first payment on the organ Smith had gathered enough money to start his business and was doing so well he had no difficulty in borrowing the amount needed to make the payment. From that time he has made money so fast that now be could give away several \$5,000 organs and pay for them as well.-Chicago Tribune.

MEXICAN POLITENESS.

in the State of Michoacan Chivalry is Compulsory.

"If any man opines that the days of chivalry and the true knight errant spirit have gone forever, let him start forthwith on a far southward journey, not half his steps until he brings up in the town of Morelia, which is the capital of the Mexican state of Michoacan," remarked a traveling

"Having arrived in Morelia, he will at once see that the chivalrous spirit still survives. I was down there not long ago, and the gallantry of the men and their extreme readiness to extend courtesles to the fair sex pleased and surprised me. When I noticed the alacrity with which the native males jumped up on the crowded street car to offer their seats to the first senoritathat entered, I thought to myself how much more gentlemanly are these Mexicans than many of my own countrymen. They do not wait to see if some other man is going to get up, but each tries to beat the other in cour-

tectualy proffering his seat to the lady. "I spoke about the matter to the proprietor of the botel and immediately he began to laugh.

"'You must understand, senor,' said the lunkeeper, 'that the governor of our state issued a decree that if any man keep his seat in a street car. thereby compelling a weman to stand. he is liable to arrest and a fine. The police have been instructed to execute this order severely, and I think this has much to do with the prempt politeness of which you speak, since none of our population wishes to become involved with the potice and to be publicly branded as lacking in gentility." -Baltimore American.

She Had Red Surns.

The philanthropic lady was visiting a Glasgow sinto and had just been ushered into a house where the good wife was engaged washing. Her endeavor was to elevate the minds of the poor, and she asked, "Have you read

In answer the good wife hared her brawny arm and displayed a large red mark, saying: "There's wan I got this morn wi' the steam of the pot billin' ower. But, ofter a', a horn's are red!"

Not Very Consoling. Humorist-The editor makes fun of my jokes. Spacer-Well, I don't see that you have may kirk coming. That's more than you are able to do.-Chicago-Mews.

He that blows upon dust fills bis eyes with it. - Danish Preverb.

Just a Fish Story. Forty years ago, when my father captain of an East India trading st while off the coast of Africa near equator the ship's carpenter was the sick and died. He was sewed up canyas, and with him were sewed kit of tools and grindstone for ball to sink him. Services were beld the body committed to the sea.

Four days later the ship's boy overboard, and a great shark came under the stern and swallowed the before he could be reached.

The next day the shark was still to lowing the ship. A shark hook balted and put over the stern, and shark was caught, but was so large could not be taken on board, and the were obliged to shoot him. He loo so plump and large the mate, who w an old whaler, wanted to go over side and cut the fish open. He lowered over and cut a hole in shark and was surprised to hear vot and on looking in saw the ship's turning the grindstone for the st carpenter, who was sharpening ax to cut their way out.

My father, who is eighty years can vouch for this that it is a story.-Boston Journal.

His Old College Chums. A conductor sent a new brakemen put some tramps off the train. The were riding in a box car. The br man dropped into the car and a "Where are you fellows going?" Atchison." "Well, you can't to Atchison on this train, so get of "You get," came the reply, and as brakeman was looking into the be ness end of a gun he took the adgiven him and "got." He went back the caboose, and the conductor at him if he had put the fellows "No," he answered, "I did not h the heart to put them off. They w to go to Atchison, and, besides, are old schoolmates of mine." conductor used some very strong guage and then said he would them off himself. Mr. Barrett, of Stephens, the author of the measure to have the pensions paid annually instead of quarterly, as is now the case, had his measure taken up next.

This bill had been favorably reported.

Mr. Hall, of Bibb, got a special order up to have his bill to create a state board of tax assessors to fix a taxable value of corporation property, up for consideration, and was defeated.

Mr. Candler, chairman of the house committee to investigate the convict lease system, introduced a resolution. which was adopted. It asked that the house committee be allowed, and empowered, to sit through vacation and to report, with its findings and report to the governor, who would be allowed to make such recommenda, tions to the next general assembly, as he saw fit.

That there will be no "extra session" of the present legislature is now beyond the realm of doubt, and the legislators are already making preparations to leave Atlanta Wednesday night, the general belief being that the general assembly will adjourn sine die by 9 o'clock on the fiftieth day, Wednesday, August 12.

This belief was brought out by the introduction in the senate Monday of the Felder-Stevens substitute for the convict measures pending and later by the reports in each house by the chairmen of the respective committees composing the legislative committee investigating the convict system, asking that the members be allowed to continue their investigation "during recess," and report to the governor, who should make such recassembly" as he saw fit.

Shellman, Ga., Aug. 12.-The cotton season in talk section is opening up very rapidly, the warehouses in this section having siready weighed about a hundred bales of new cotton. They will probably weigh 1,500 bales during the month of August.

Shellman probably weighs more cotton than any place of its size in the state, the average receipts here being from ten to thirteen thousand bales. Present prospects point to one of the largest crops ever marketed.

History of Smallpox.

Smallpox appears to have been first described by Rhazes, an Arabian physician living about 900 A. D. It was introduced into southern Europe in the time of the crusades and slowly spread into the more northern regions. In 1517 it was carried from Spain to Santo Domingo and thence to Mexico, where it is said to have swept off 3,500,000 of the natives. It aprend rapfilly all over the new world, and whole villages and even tribes of Indians were carried off by it.

DO YOU WANT TO

MAKE OR LOSE MONEY

THIS SUMMER?

THERE is no good reason for any "summer I dullness' in the stores of this city. That's a strong statement-but its not nearly so strong as the one to follow.

No store in this city ever suffered from summer dullness that was not directly traceable to its advertising policy—that was not INEVITABLE on account of its advertising policy. This is a strong statement—but not so strong as the one to follow.

You—if you who read this are a merchant in this city—HAVE THE ABSOLUTE POWER TO DECIDE WHETHER, during THIS summer, YOUR STORE SHALL LAG AND LOSE GROUND, through ENCOURAGING THE NON-BUYING HABIT IN THE PEOPLE-or shall keep as busy as in the so-called "busy seasons." You decide the matter one way or the other when you decide on how much or how little you will advertise during these summer months.

To really "gain ground" at a time when some stores are lagging and falling back is not only possible—it is an aspiration—worthy of a man who has the habit of accomplishing his purpose.

Congressman Clayton gained new fame as a man of oratorical ability by reason of his effective address. His high tribute to the qualities of Mr. Bryan, both as a public man TWENTY OR THIRTY INJURED and as a private individual, was well received.

several minutes owing to the applause which greeted him when he stepped forward to offer his speech of acceptance.

Mr. Bryan's powers as an orator were seldom better displayed in spite of the difficulties attending outdoor speaking before a large gathering. He spoke with frequent gesture, and his about 12 miles west of Glendive Monthe crowd.

At 6:30 in the evening the notificahome, Fairview, where on the lawn were not seriously hurt, and all but the candidate tendered them an elaborate dinner. At the conclusion o' this parading bands marched by and brilliant displays of fireworks by en thusiaste Lincoln citizens marked the close of the day's festivities.

Lincoln enjoyed a day probably such as it never had before, for no previous notification was ever attended by so comprehensive a celebration. The business men of the city cooperin making the day a gala time in every detail. American flags and bunting were everywhere, and as early band concerts were held in the capitol grounds and in Government square. At noon a luncheon was tendered Mr. Bryan, Mr. Kern and the notification committee at the Lincoln hotel. It was almost two hours later when the are now being cared for. The dead: committee, accompanied by Mr. Bryan and Mr. Kern were escorted N. D. in carriages to the capitol grounds by a procession, headed by a platoon of police and the Nebraska state band.

Mr. Clayton, of Alabama, in his notification speech, said:

Mr. Bryan: The national democratic convention that assembled in Denver on July 7 was truly a representative party of the United States. Harmony characterized its deliberations and all of its conclusions were reached unanimously. It stood for the conservatism of government under a written constitution and for the application of democratic principles in public affairs to meet the requirements of progressive American civiltration.

Without intervention of a completed ballot you are nominated for president of the United States; a committee composed of permanent chair and one delegate from each state and territor was appointed to inform you of your selection as the standard bearer of your party in the pending cam-

Therefore, in pursuance of the action of the convention this committee here present now brings to you this message from a united and aggressive democracy. Our great party is confident of the righteousness of its cause, and, relying upon the spirit of the people to rescue the government of the republic from the hands of the despoilers who have exploited it for the benefit of favorites to the injury of the masses of the plain people.

We know that our party platform and candidate stand for the best interests of all the people. We know that success is deserved. We believe that our party and candidate animated by the wisest and most patriotic purposes will achieve victory in November. On no political issue is the platform a straddle or evasion and its every declaration squares with the principles of old-fashloned democracy. It is essentially a democratic instrument preserving and applying the faith of the fathers to existing con-

Fireman Ab Matthews and an unknown tramp were killed and probably twenty or thirty pertion committee arrived at Mr. Bryan's sons injured. Many of those injured one, Wilson, an express messenger, will recover.

The train was traveling probably saluted Mr. Bryan and his guests, and at a speed of fifty miles an hour, within two miles of Allard station, it rounded a curve and ran into a burned bridge about 150 feet long. Engineer Litch could not see that the structure was out until the train was virtually over the chasm. When he did see it he quickly reversed the engine and threw on the emergency brakes which ated with the duly appointed officials action prevented all the coaches except the smoker and the mail car from going into the ditch.

A relief train bearing physicians as 10 o'clock in the morning public from this city at once left for the scene of the accident and a work train was made up and is now at work clearing the track

The dead, together with all the injured, were brought to Gleadive and Ab Matthews fireman, Dickinson,

The list of the injured includes the following: C. D. Litch, engineer, injured internally; H. Oliver, Mandan, N. D., injured about head; J. B. Wilson, St. Paul, express messenger, fatally scalded by steam; William Newman Great Falls, burned and internal injuries; James Abeyer, Marion, Ohio, arm broken.

omitted that you need supply by giving your individual views. In these respects you have tremendous advantage of your republican opponent. Standing on such a platform possessed of an abiding conviction that our cause is just, you will draw the keen blade of righteousness and truta, throwing away the scabbard, fight for the principle of equal rights for all and special privileges to none, Your party has emphatically refused to form any alliance with special interests that enjoy special privileges under republican administration. You have always refused to compromise with those who prostitute the functions of government for the lust of greed.

It was your lofty statesmanship, your unwavering fidelity, your Jeffersonian standard of democracy that induced the representatives of American free men to unanimously choose you as their candidate, for the highest office in the world. It would be inappropriate for me to detain this splendid audience that has assembled here toda to listen to your patriotic and eloquent words. Therefore, I now hard you an authenticated copy of the platform adopted by the democratic convention at Denver and request the secretary to read the formal letter of notification signed by the committee.

son Escaped Injury, Dayton, Ohio, Aug. 12.-Five persons are dead, three are probably fatally injured, and sixteen seriously injured as the result of a collision of two trolley cars between Sidney and Piqua, on one of the lines of the Western Ohio Traction Company.

The dead-William Balley, Piqua, Ohio: William McQuillin, Lockington, Ohio; James Kohl, Detroit, Mich.; George Robinson, banker, Stdney. Ohio; C. M. Hummelhouser, Detroit,

The injured are: L. B Hagenrod, Lockington; Charles McClure, Sidney; Tobe Maxley, Lima; Charles Hale, motorman, probably fatally; George A. Hixe, Baltimore, probably fatally; Clarence Long, Dayton.

The accident was due to a misunderstanding of orders. The impact of the two cars was so terrible that but one of those on the cars escaped injury. Many automobiles from Piqua and Sidney were rushed to the scene and conveyed those injured to an improvised hospital at the Shelby county infirmary and to their homes in Sidney and this city.

The northbound car out of Piqua was running on time, while the southbound car out of Sidney was late and running at great speed. The cars met almost directly in front of the Shelby county infirmary.

Negro Confesses He Did Killing, White Man Did Not.

Columbus, Ga., Aug. 12, -According to an affidavit just made by Gene Bryant, a negro, Jule Howard, a Harris county white man, who, last year, was sent up for the murder of Dogler Huckabee, another young white man, of that county, is not guilty of the crime. Both Howard and the negro, Bryant, were convicted in Muscoges superior court, and received penitentiary sentences,

In Bryant's affidavit, made in Bibb county, Georgia, he says that he (Bryant) killed Huckabee, shooting him three times and stabbing him three times, and that Howard was not present at the time. A petition for Howard's pardon is now being circulated.

Robert Hayes, the only American in the number, who is president of the Blocton local union among the miners, will be placed in a special cell and heavily guarded.

The circuit court will meet in two weeks and the men charged with murder in connection with the Biocton tragedy will be indicted and tried. The United Mine Workers of America will furnish legal help for the accused members of their organization. Copies of the proclamation issued by Governor Monday ofght were sent out throughout the entire mining district in order that the runk and file of the miners can read the same.

The early morning reports from throughout Jefferson county were to the effect that everything was quiet in the mining section. Lieutenant Col. onel Hubbard, in charge of the military forces has made a tour of the mining section in an automobile. National Vice President John P White. of the United Mine Workers, will begin a trip immediately through the district. FLORIDA GROWERS **GET GOOD RESULTS**

Commission Beneficial.

IN ALL FREIGHTS SAVING

Less Benefit Received From Strawberry Growers Than All Others, But Result of Effort Was Sweeping and Beneficial Along All Lines.

President Frank D. Warner of the Florida Fruit and Vegetable Growers' Protective Association, which association has been endeavoring to secure an equitable rate on shipments of fruit and vegetables from Florida points to markets of the North, the grienvances having been placed before the Interstate Commerce Commission several weeks ago, has received notes of the proceedings of the commission in which these matters were taken up, and is pleased at the result of the decisions and rulings of the commission on every point, from which it will be readily seen that a saving amounting to considerable will be enjoyed by the growers of Florida.

It appears that there has been only one section of the articles of grievance which did not have the tendency of a material benefit to the grower, that being the section relative to the transportation of strawberries from Starke and Lawtey to New York and other points, for which a minimum rate of \$1.80 per carload of 200 boxes has been charged. This petition prayed for a more equitable rate, the answer being favorable to the strawberry shippers only in that the minimum was fixed at 175 crates, instead of 200, as was originally required.

The Orders.

The following orders have been is sued by the commission, which will prove of interest to every grower of the State:

"From the age of three months until fifteen years old, my son Owen's life was made intolerable by eczema in its worst form. He

was all right until a red rash broke out on his fore-head, but we were not alarmed at first. Very soon, however, the rash began to spread over his head and shoulders, and it caused him great discomfort. I took him to a doctor and tried half a dozen

other treatments, all with the same result: no improvement at all. The disease gradually spread until nearly every part of his body was quite raw. We had to strap him down in bed, for he used to tear himself dreadfully in his slear. The agony he went through The agony he went through is quite beyond words. No one thought we would rear him. The regimental we would rear him. The regimental doctor, a very clever man, pronounced the case hopeless; at least, he said the only hope was that he might, if he lived long enough, outgrow it to some extent. We had him in hospitals four times and he was pronounced one of the worst cases, if not the worst, ever admitted. From each he was disadmitted. From each he was dis-charged as incurable; in fact he got worse under the successive treatments. At one hospital they incased him in plaster, and this seemed to aggravate the soreness terribly. GAINESVILLE HAVEN OPEN.

Large Number of Citizens Attended the Opening Tuesday.

From Wednesday's Daily:

The Gainesville Haven Sanatorium was formally opened Tuesday afternoon and evening, after having been thoroughly refitted and refurnished by appearance at the fall term the manager, Dr. C. F. Marsh.

Dr. Marsh, who is a physician of note, conceived the idea of this institution years selected thorough investigation, Gainesville as the place. With the idea of establishing the sanatorium here, he, with other prominent physicians and citizens, secured the National Odd Fellows' Home, which has been converted into a modern and up-to-date place.

Citizens of the city were invited to visit the place in the afternoon and the enlarged prostate gland evening, and many availed themselves of the opportunity. They were shown bottles of Foley's Kidney through the place by Dr. Marsh and bel better than I have for his attendants, visiting the operating and sick rooms, the kitchen, diningroom, parlor, library and other places, and were well pleased with all arrangements.

BANKER CHAMBLISS VISITS GAINESVILLE

Prominent Financier and Business Man of Ocala Here on Business.

COMPLIMENTS BANKS OF CITY

Declares That Appearances, Together With Financial Statements Which He Reads, Brings Gainesville Up to Best In Country.

Among the prominent visitors to Gainesville is Z. C. Chambliss of Ocala, a member of the firm of Monroe & Chambliss, the well-known bankers of that city.

Mr. Chambliss is not only interested in the banking interprises of Marion county, but is also engaged in the rearing of fine cattle, as he has considerable money invested in the Marion Stock Farms, which enjoys the reputation as raising among the finest cattle in the State.

Mr. Chambliss, who is a man who believes in advancement, is very much pleased with the progress Gainesville has made within the past two or three

"I used to be a frequent visitor to Gainesville when it was nothing more than a country village several years ago," said Mr. Chambliss, "and I an. certainly proud of the many improvements you have made, especially along the line of banking. As a matter of course, the first thing I notice in any community is the banks and the general conditions surrounding them, and 1 can say with impunity that no city of the same size and population in tne South, or anywhere else, enjoys better bank buildings, Interior and out, than those afforded by Galnesville. I feel sure, by the condition of the buildings and the condition of the reports, which I have naturally noticed, that the Gainesville banks are all right, which means that the Gainesville people are all right also."

Mr. Chambliss has enjoyed a remarkable success in Marion county, and is one of the most widely-known of the younger business men of Ocala and the county.

PLEASANT MAY BE PAVED.

Prominent Property Owner Pushing Work on That Thoroughfare.

For some time the property owners along North Pleasant street have been making an effort to have that thoroughfare paved with some sort of a durable material, through the City Council, but not until recently has there been any effect resulting from this effort.

It is understood that the work of paving this thoroughfare is becoming a matter of serious importance, as the filth standing in the street, especially after a rain, is something not only obnoxious to the nostrils, but is destined to produce typhoid fever or other sickness. Great puddles of mud and water are permitted to stand for days, which makes a stench almost unendurable to those who reside along the street.

It is hoped that the next move the council makes in paving will be North Pleasant street, as no thoroughfare in the city is more worthy of attention.

FLORIDA GROWERS **GET GOOD RESULTS**

Pecent Ruling of Interstate Commerce Commission Beneficial.

SAVING IN ALL FREIGHTS

Less Benefit Received From Strawber ry Growers Than All Others, But Result of Effort Was Sweeping and Beneficial Along All Lines.

President Frank D. Warner of the ing the best the world affords. Florida Fruit and Vegetable Growers' Protective Association, which associamarkets of the North, the grienvances having been placed before the Interstate Commerce Commission several weeks ago, has received notes of the proceedings of the commission in which these matters were taken up, and is pleased at the result of the decisions and rulings of the commission on every point, from which it will be readily seen that a saving amounting to considerable will be enjoyed by the growers of Florida.

It appears that there has been only one section of the articles of grievance which did not have the tendency of a material benefit to the grower, that being the section relative to the transportation of strawberries from Starke and Lawtey to New York and other points, for which a minimum rate of \$1.80 per carload of 200 boxes has been charged. This petition prayed for a more equitable rate, the answer being favorable to the strawberry shippers only in that the minimum was fixed at 175 crates, instead of 200, as was originally required.

The Orders.

The following orders have been issued by the commission, which will prove of interest to every grower of the State:

DEATH OF A GOOD LADY.

Short Sketch of Christian Life of Mrs. S. P. Hodge.

Wilcox, Fla., Aug. 10 .- Mrs. Martha Hodge was born in Tatnail county, Georgia, in 1824. She was therefore 84 years old. Her maiden name was Calehan. She was first married to Daniel Turner of Irwin county, Ga., for whom she was the mother of fifteen children, only three of whom are still living, viz: T. J. Turner of Wilcox, Mrs. G. W. Snyder of Newberry, and Mrs. W. J. Martin of Wilcox, Fla. Her husband died in 1864, and after and was married to S. P. Hodge in

Mrs. Hodge died July 18th of this year. She was for many years a consistent member of the Baptist Church, and was beloved by all those who knew her intimately. She leaves a host of friends and many grand-children and great-grand-children to mourn their loss. She was buried in the cemetery at Ebenezer Baptist church, in Levy county, to await the final call of her Master, and she will meet Him at the time of the first resurrection.

Blessed and holy is He that hath part in the First Resurrection. PASTOR.

COMPLIMENTS BANKS OF CITY

Declares That Appearances, Together With Financial Statements Which He Reads, Brings Gainesville Up to Best In Country.

Among the prominent visitors to Gainesville is Z. C. Chambliss of Ocala, a member of the firm of Monroe & Chambliss, the well-known bankers of that city.

Mr. Chambliss is not only interested in the banking interprises of Marion county, but is also engaged in the rearing of fine cattle, as he has considerable money invested in the Marion Stock Farms, which enjoys the reputation as raising among the finest cattle in the State.

Mr. Chambliss, who is a man who believes in advancement, is very much pleased with the progress Gainesville has made within the past two or three

"I used to be a frequent visitor to Gainesville when it was nothing more than a country village several years ago," said Mr. Chambliss, "and I an certainly proud of the many improvements you have made, especially along the line of banking. As a matter of course, the first thing I notice in any community is the banks and the general conditions surrounding them, and 1 can say with impunity that no city of the same size and population in tne South, or anywhere else, enjoys better bank buildings, interior and out, than those afforded by Gainesville. I feel sure, by the condition of the buildings and the condition of the reports, which I have naturally noticed, that the Gainesville banks are all right, which means that the Gainesville people are all right also."

Mr. Chambliss has enjoyed a remarkable success in Marion county, and is one of the most widely-known of the younger business men of Ocala and the county.

PLEASANT MAY BE PAVED.

Prominent Property Owner Pushing Work on That Thoroughfare.

For some time the property owners along North Pleasant street have been making an effort to have that thordurable material, through the City Council, but not until recently has there been any effect resulting from this effort.

It is understood that the work of paving this thoroughfare is becoming a matter of serious importance, as the filth standing in the street, especially after a rain, is something not only obnoxious to the nostrils, but is destined to produce typhoid fever or other sickness. Great puddles of mud and water are permitted to stand for days, which makes a stench almost unendurable to those who reside along the street.

It is hoped that the next move the council makes in paving will be North Pleasant street, as no thoroughfare in the city is more worthy of attention.

20,000 TELEGRAPH **OPERATORS NEEDED**

Young Men Prepare Yourselves for Good Positions.

On account of the new eight-hour law passed by Congress in the interest of telegraphers, and also on account of so many new railroads being built and old lines extended, an unusual demand for operators has been created. Conservative estimates have placed the number of additional operators that will be required during the next ten months at approximately 20,000.

VERY UNWISE CLAMOR.

(Punta Gorda Herald.) Suppose we abolish our present sys-

tem of leasing the State convicts, what shall we do? Set them free, put them to work on the public roads, or build a penitentiary and incarcerate them therein? One of these three things will have to be done, if we abandon the lease system.

The first is preposterous, while either of the other two will impose upon the taxpayers a burden of almost ruinous proportions.

We appeal to the good sense, to the papers which are clamoring for the abolition of the present lease system, to consider the consequences, if their demands should have the intended effect upon the Legislature.

This Season's Orange Crop.

After the most careful estimate it is possible to make this early in the season, based on reports from the growers themselves and personal observation, we are compelled to conclude that the present crop of oranges will not exceed last season's crop by over 5 per cent, and it may be as much as 5 per cent smaller. Of course, the rains and prevalence of storms are factors which may change the total crop.

The grapefruit crop may be onethird larger than last season, it being impossible to accurately estimate grapefruit as early in the season as oranges, the grapefruit never having been kept separate by the transportation lines.

The quality of both oranges and md, it could as well be applied to grapefruit promises to be as fine as Florida ever produced.

Last year's crop made a total of 3,106,093 boxes of both oranges and grapefruit, of which it is safe to estimate that one-fifth was grapefruit, but was the poorest fruit ever grown winging up so luxuriantly on the in the State; besides, in many cases the summer fruit was packed in with the regular crop while it was too

> Notwithstanding the panic and every other influence that may exist, if the fruit is well distributed, honestly and intelligently marketed, there is no reason whatever that good oranges should not bring \$2 or more a box f. o. b., and grapefruit \$3 per box f. o. b.

> The crop is several weeks earlier this year than last, and there is but very little summer fruit in the Statetwo factors that worked greatly to the disadvantage of last year's crop.

> The Florida Orange Growers' Company is preparing to sell the crops of its stockholders and will begin the execution of its plans early in September.

> If growers wish to get the above prices for their fruit and wish to make orange-growing profitable to the grower, then they must become stockholders in the company and must post themselves by attending the annual stockholders' meeting at Tampa on August 25th, at 1 o'clock.

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fyfe one of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW Says of Unicorn root (Helonius Dioica) which is one of the chief ingredients of the "Favorite Prescription";

worlte Prescription":

"A remedy which invariably acts as a uterine invigorator " makes for normal activity of the entire reproductive system." He continues "in Helonias we have a medicament which more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seidom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back, with sleucorrhoa; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women: constant sensation of heat in the region of the kidneys; membryhagis (flooding), due to a weakened condition of the reproductive system; amenorabge (surpressed or absent monthly periods), the bills from or accompanying an abnormal condition of the digestive organs and assemic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

Of Golden Seal root, another prominent ingredient of "Favorite Prescription." Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions and general enfeeblement, it is useful."

Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root:

"In relation to its general effects on the system, there is no medicine in use about which there is such general unanimity of opinion. It is unteresally regarded as the tonic useful in all debilitated states."

Prof. R. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

A PROMINENT VISITOR.

Old Confederate Soldier, Now Special Field Agent, Was Here.

Among the prominent visitors to this city for the past few days was Hon. Clayton G. Coleman of Richmond, Va., who has been here on business connected with the field work of Captain A. Paul.

Col. Coleman, who is regarded as one of the most efficient as well as one of the most successful field agents in the employ of the Government, is an ex-Confederate soldier, and a man well-liked and well-respected by all who know him. Possessed of that genial, hospitable Southern manner, he cannot help but attract the admiration of everyone whom he meets.

Col. Coleman, notwithstanding that he is a Democrat "clean to the bone." is a great admirer of President President Roosevelt; his advice was Roosevelt, as his son was a member sought by Mr. Roosevelt at a crisis of of Roosevelt's Rough Riders during that campaign, and he raised the the Spanish-American War. Col. Coleman is rather advanced in years, being now about sixty-eight. but is rather young in appearance, and would not be taken for more than fifty. He is possessed of a most amiable disposition, and those who met him here hope to see him again.

Col. Coleman left for Quincy and points in West Florida, where he will be on official business for the next few days.

An Interesting Marriage. From Wednesday's Daily Sun:

Miss Evelyn Lucille Collins, the accomplished daughter of Mr. and Mrs. W. A. Collins, and Mr. Ben Mixson were married last evening at the residence of Rev. Father Maher. The bride and groom left last night for Hot Springs, Ark., and will spend the honeymoon at that resort and other places in the West. All the parties formerly lived in this city and have hosts of friends here. Recently they have been making their homes at Gainesville. Mr. Mixson is a valued employe of the Atlantic Coast Line railroad .- Times-Union.
